PROFESSIONAL SUMMARY

Final-year B.Tech AI & Data Science student (CGPA 8.1) seeking an internship to apply skills in Python, machine learning, data analysis and application development. Experience across 2 internships, 5+ deployed projects, 1 published research paper, and founding a technology startup. Quick learner, reliable team member and strong independent builder.

EDUCATION

B.Tech – Artificial Intelligence & Data Science | Ganadipathy Tulsi's Jain Engineering College, Vellore | 2023 – 2027 (Pursuing) | **CGPA: 8.1**

EXPERIENCE

Mobile App Development Intern | Myme Techies, Vellore | May 2026 – July 2026
- Developed **AstraRoom**, a Flutter room-automation app controlling 2 device types from a phone.
- Worked on real-time device communication between the app and ESP32 hardware.

Frontend Developer Intern | BA Technology, Chennai | July 2025 – August 2025
- Built **PandaAtlas**, a responsive hotel booking website using HTML5, CSS3, JavaScript and Bootstrap, as an independent contributor.

Founder | Ashvex (Code · AI · Sky) | Software, AI and Drone divisions
- Founded a technology startup building software, AI and hardware/robotics products.

PROJECTS

Telecom Customer Churn Prediction | Python, XGBoost, Scikit-learn, Streamlit
- Built an XGBoost classifier with **88% accuracy** using feature engineering and validation; deployed as a real-time Streamlit app.

AI Research Agent | Python, LLMs, RAG, APIs
- Built an autonomous research system using LLMs, retrieval-augmented generation and API integration for information retrieval.

Face Liveness Detection System | Python, Flask, OpenCV, MediaPipe, SQLite
- Developed a computer-vision app to distinguish live faces from spoofing attempts, with Flask backend and web interface.

AquaControl – Smart Aquarium Controller | ESP32, Flutter, Firebase
- Full-stack IoT system (firmware, Firebase backend, Flutter app) controlling 5+ devices; delivered as a signed Android APK.

Sales Data Analysis & BI Dashboard | Python, Pandas, NumPy, Matplotlib
- Cleaned and analysed retail sales data; built KPI dashboards showing revenue trends and seasonal patterns.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, Dart, Embedded C/C++

AI / Data: Scikit-learn, XGBoost, PyTorch, Pandas, NumPy, Matplotlib, OpenCV, MediaPipe, LLMs, RAG

Development: Flask, Flutter, Streamlit, REST API, WebSocket, HTML5, CSS3, Bootstrap

Databases / Cloud: MySQL, SQLite, MongoDB, Firebase, Firestore, Google Cloud fundamentals

Tools: Git, GitHub, VS Code, Linux, Raspberry Pi, ESP32

CERTIFICATIONS

- Google Cloud Gen AI Academy APAC (Cohort 3) – Hack2skill, Sept 2026 | Building RAG Apps Using MongoDB – MongoDB, Sept 2026
- Google Cloud Cybersecurity Certificate – 2026 | Cyber Security – Google Ingage (Naan Mudhalvan), Aug 2026 | UI/UX Design – GUVI (Naan Mudhalvan), Nov 2025

PUBLICATION & ACHIEVEMENTS

- **Publication:** “The Implications of Artificial Intelligence and Automation in India, Specifically with Regard to Job Displacement and Opportunities”, IJRPA, ISSN 2456-9995, Vol. 2, Issue 8, Aug 2026.
- Participant, QuizOff 2026 – India's Biggest AI Quiz (Unstop), among 5,25,000+ students.
